29	Boal Family (SQ)	Cock: Normal Grey BF1-124-24	Really like this cock and complements the hen in the pair his strengths are his lovely feather length and density, and he is a nice handful with good keel length. His mother was a cobalt, so he looks to be a dark factor grey and straight out of the yf line. Plenty of good budgies in his pedigree		
		Hen: Yellowface Opaline Cinnamon grey	Like the cock I really like this hen for her strengths which is her lovely modern cap, her spot and she has really nice feather. She is a mid-size hen and was a spare for this year's breeding season and didn't get a run, so she is a maiden hen. Her sire was a lovely big, long grey cock that ran 8th at 2023 ANBC nationals in Ballarat which makes her out of the YF line as well.

BUDGERIGAR PHOTO CAGE

This cage has a 360-degree rotating perch controlled by a handle at the front so every angle of the bird can be captured. The blue background can be removed by sliding it up and out to expose a white background or you can add whatever colour you like. There are two doors of varying sizes, so the wire front is excluded from all photos. It does take some of the frustration out of taking photos of your birds.

The above lot has been donated to be auctioned off with the proceeds going to the North Queensland Budgerigar Zone Inc.

NORTH QUEENSLAND BUDGERIGAR ZONE INC. THANKS ALL THE VENDORS
